We build on techniques already learned and teach you how to:

- Change hundreds of beliefs and work more quickly in Theta to create instant healings.
- Ensure when you go up you go directly to connect with Source on the Seventh Plane.
- Use an advanced understanding of the seven planes of existence to achieve more powerful healing and manifestation.
- Clear any vows and agreements you may have made with the different planes that are blocking you from co-creating directly with Source.
- Heal fetal memory by sending love to the womb. This enables people to recreate their future as if they had always been loved. A powerful technique for depression, addictions or low self esteem.
- Heal “broken souls” caused by traumatic experiences. This restores energy and brings joy back into peoples lives.
- Clear free floating memories (Engram Banks) from surgery, abuse, or other trauma the body has split off from and been unable to heal.
- Check for nutritional deficiencies. Relate them to the different planes and blocked emotions and beliefs held at that level.
- We learn how to connect with and heal the energies of plants and inanimate objects such as crystals, dwelling houses and land.
- Step outside of consensus reality and work with the laws of time.

Theta Orian Healing Technique

Advanced Theta Healing

This Advanced Theta healing workshop uses the Theta Healing process to further accelerate and unlock your inner healing abilities.

The workshop focuses on clearing old conditioning and mental beliefs that dis-empower us and block us from being able to fully embrace and practice the Theta modality.

This process teaches us how to live without negative feelings and by clearing feelings such as anger, resentment and grudges we have more energy for manifesting. After this workshop most people find they manifest more easily and it is much easier to clear blocked energy. The old paradigm of evolving through suffering can be part of our conditioned beliefs thus, when removed and replaced with Core Belief work and with the infusion of positive feelings, our lives flow and grow with joy and ease.

We learn how to work more holistically with the body/mind relationship and this prepares us to work more deeply with the molecular structure of the body in Intuitive Anatomy and DNA 3.

Learning more about the planes of existence is an important part of the workshop for it focuses on how to identify and release any oaths or contracts or beliefs that may be binding us too a particular plane and limiting our spiritual growth and healing abilities. This allows us to connect more easily with Source to create instant healings.

Theta Healing Technique

The Theta technique was developed by Vianna Stibal after she experienced a spontaneous healing of her own cancer in 1995 and is outlined in her book "Go Up and Seek God". Vianna is a healer and medical intuitive who has learned how to connect with the Creator to co-create and facilitate the healing processes. She has developed the ability to see clearly into the human body and effect change in the DNA at the core belief, genetic, history and soul levels. She now teaches this to others in seminars all over the world.

Vianna says of Theta Healing:

"In Theta Healing, we put to use our natural intuition, relying on God's unconditional love to do the actual "work". By changing your brain wave cycle to include the "theta" state, you can actually watch God create, instantaneous physical and emotional healing."

Ongoing Support

The follow-up practice sessions are an opportunity to reconnect with other Theta healers practice in a relaxed atmosphere and also get the chance to revise the work of previous workshops. Held every month and open to anyone who has taken a Theta workshop all are welcome to attend. These are most valuable as they offer the opportunity to share our experiences and answer people's questions. They're fun, informative and supportive.

About Tanya Avard

Tanya's spiritual quest, over the past twenty years, has taken her deep within herself, and involved her in bringing that spiritual connection to others through meditation. She has facilitated many groups in a variety of meditation practices over this period. This connection is most beautifully expressed in the Theta/Orian Healing Technique. To her, this work is both sacred and profoundly simple. She has a genuine passion for this work, by teaching others to empower themselves facilitating the change in another and seeing that transformation and passionate about sharing this modality.

Her qualifications include training in Quantum Touch, Kinergetics, Reset, Counselling, Theta Intuitive Anatomy and Teaching certificates in Theta Healing, DNA 1&2 and Theta 2 Advanced.

She says of Theta Healing "For me Theta Healing embraces the whole person. The depth of healing and awareness gained with this modality is unlike any other in my experience. Beliefs held at these levels would have taken me lifetimes to clear otherwise. This modality has changed my life and enabled me to live from a place of self-empowerment instead of being a victim.
